

# **Ginny Felix**

**TPHS Senior  
Falcon Vision Reporter**

**TPHS Senior Ginny Felix is most grateful for her education, her family & friends, her dog and her teachers. She is also excited to be heading to college soon. She has not committed to a specific University yet but is hoping (as of now) to receive her PhD in Stem Cell and Tissue Engineering.**

**While at TPHS she has been involved with multiple clubs and Falcon Vision (the student run broadcast show for TPHS). Her passions include feminism, environmentalism, mental health awareness, reproductive rights, journalism, learning about biotechnology and learning in general.**

**When she has downtime she likes to hangout with her friends, her family, or her dogs. She likes to watch stand-up comedy, listen to music and sleep.**

**The photo above is a picture of her during an interview that she did with SDUHSD Superintendent, Dr. Cheryl James-Ward for TPHS Falcon Vision.**
